

CITY COUNCIL AGENDA REPORT

SUBJECT: Information on Request from Residents for Speed Control Device.

AGENDA DATE: November 18, 2008

PREPARED BY: Nick Fenley, General Services Director

APPROVED FOR AGENDA BY: Ralph Velez, City Manager

RECOMMENDATION: Currently under assessment.

FISCAL IMPACT: N/A

BACKGROUND INFORMATION: Residents in the Hacienda and Las Casitas Subdivision submitted a signed petition requesting the installation of speed control devices on Sam Ellis Street. (See attachment)

DISCUSSION: A portion Sam Ellis Street is yet to completed, approved and open as a thoroughfare from V.V. Williams Avenue west to Klope Avenue. This request has been submitted to the Police Chief to conduct a Mini Traffic Study to provide direction and/or device recommendation for said request.

Agenda Item No. _____

Page 1 of 2

October 31.2008

Dear Louis A. Fuentes, Mayor,

The residents of the area that will use the expanded Sam Ellis St. from Kloke Road to V.V. Williams Ave, have signed a petition, (see attached), requesting that the City Council put on their next meeting agenda, time to discuss the completing of Sam Ellis St., and the need for stop signs and speed bumps.

The purpose is to keep Sam Ellis St. from becoming a drag strip when finished, that will run from Kloke Road on the West, to V.V. Williams Ave. on the East, and covering a long 8 blocks that fronts on 2 city parks, retention basins. The new park, retention basin at the intersection of Rodeo St. and Sam Ellis St., and the other park, retention basin between G. Bert Ave, and M. Knechel Ave.

There are apparently no plans for either stop signs or speed bumps at any location on Sam Ellis St., between Kloke Rd. and V.V. Williams Ave.

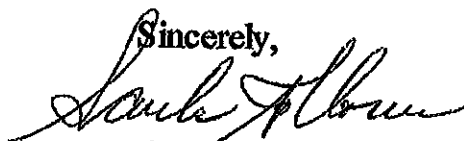

The residents of the area are requesting the City of Calexico place stop signs on Sam Ellis St., in either direction at the intersections of River Dr., Rodeo St., and G. Bert Ave. The residents are also requesting that speed bumps be installed on Sam Ellis St., just east of Los Haciendas Dr., and just east of M. Knechel Ave.

Speed bumps will slow the traffic in front of the 2 city parks, retention basins. Any thing less than this will open Sam Ellis St. to a speeders drag strip. This will expose the residents of the area to dangerous traffic hazards that are unnecessary. Excessive speeding of cars on Sam Ellis St. will expose the people using the parks, the cars attempting to enter onto Sam Ellis St. from the side streets, and most importantly the school children walking to the schools in a very hazardous and unsafe situation.

The residents of the area hope the City Council will recognize the importance of the unsafe conditions that will be available to the speeders and dragsters, and will take immediate action to see that stop signs and speed bumps be installed immediately.

We look forward to a prompt date set to discuss this item in front of the City Council.

Sincerely,

Sandra L. Flores,
1311 River Dr.

Petition

We the residents of the neighborhoods adjoining and using Sam Ellis St., between Kloke Rd., and V.V. Williams Ave. are requesting the City of Calexico, to install Stop signs on Sam Ellis St., in both directions, at River Dr., Rodeo Ave., and G.Bert Ave.. We are also requesting that speed bumps be installed on Sam Ellis St., just East of Los Haciendas Dr., and just east of M. Knechel Ave..

This request is made to prevent the opening of Sam Ellis St. between Kloke Rd. and V.V. Williams Ave, from becoming a "Drag Strip," and to protect the people using the new park, retention basin between Los Haciendas Dr, and M. Knechel Ave, and the old park between G. Bert Ave. and M. Knechel Ave., so the area is safe.

Also the children walking to William Moreno Junior High School, and Charles Blanche Elementary School, would be in danger of speeders if the street signs and speed bumps were not installed. The connecting streets to Sam Ellis St. would be a hazard for those motorists attempting to enter Sam Ellis St., with no method of slowing traffic on Sam Ellis St. with no method of slowing traffic on Sam Ellis St.
